NIAGARA FALLS *new york*

Niagara Falls, one of the natural wonders of the world, is just a scenic train ride away. On the border of New York State and Ontario where Lake Erie drains into the Niagara River, this dramatic hydraulic phenomenon is actually three massive cascades – American Falls, Bridal Veil Falls and Horseshoe Falls – at the end of Niagara Gorge. Vacationers have traveled to these famous waterfalls for over a century. Now it's your turn! Cruise close enough by boat to be engulfed by their roar. See them from above from the observation tour, and then walk beside them to feel the force of the winds they create. It's a trip of a lifetime.
